4.The speakers/presenters were well prepared and informative.		1		1	
5.I believe the topics were covered adequately in the time available.	1			1	

Comments:

- This is a complicated undertaking! The facilitators (Linda and Linda) did an excellent job of considering all points of view and incorporating intricate changes to document accordingly.

Hopefully, everyone involved here (task force members, engineers, etc) can create common language definitions for terms such as agriculture, farmland, undeveloped, etc. in a glossary first so we can bridge communication issues/gaps.

Finally, in my opinion the task force members are often speaking without enough expertise or knowledge to be dictating policies.

Thanks for all the time and effort that went into this.

- Section B-23 contains map errors that affect the houses – Hill Haven is one street not two – one shown is a private drive way – Jerome Schumann lives in a house with NBU electric bill and school age child enrolled at Lamar Elementary – if NBISD bus driver and post office can find him, WHY CAN'T YOU!!
- This has been a complete waste of time, money, resources, ...& paper!

The general consensus is that there is absolutely no need for this loop. New Braunfels residents DON'T WANT THIS and will not benefit at all from this – Quite the contrary – It destroys New Braunfels as a whole, and we, who love and cherish this town and community will forever suffer an enormous loss!

There is no way to sugar-coat such an offense.
